Air Pollution

[EPA Seeks More Time to Review Refinery Standards](#)

The Environmental Protection Agency needs three additional months to review air toxics standards for petroleum refineries, the agency said in a court filing Jan. 13 (Air Alliance Houston v. McCarthy, D.D.C., No. 12-1607, motion filed 1/13/14)....

Air Pollution

[Illinois Issues Emergency Rules Requiring Full Enclosure of Petcoke Operations](#)

Illinois Gov. Pat Quinn (D) took aim at bulk storage companies that have gathered huge piles of petroleum coke, or "petcoke," along the Calumet River, issuing emergency administrative rules Jan. 13 that will require the...

Air Pollution

[North Carolina Says EPA's 2010 Baseline Penalizes State for Improved Air Quality](#)

The baseline date of 2010 in the Environmental Protection Agency's particulate matter rule is unfair, as it fails to take into account recent improvements in North Carolina's air quality, according to the state Department of Environment...

Air Pollution

[Southern California Air Quality Agency Approves Stricter Battery Recycling Rules](#)

The South Coast Air Quality Management District has adopted tough new standards to reduce emissions of arsenic and other toxic air contaminants from two large lead-acid battery recycling facilities in Los Angeles County....

Budget

Climate Agenda Intact With Limited Riders In Appropriations Bill, White House Says

Democrats beat back efforts from Republicans to include provisions in a fiscal year 2014 appropriations package that would have limited President Barack Obama's ability to implement his climate action plan, according to the White House....

Budget

Omnibus Funding Bill Would Increase EPA Spending From Post-Sequester Levels

The Senate and House Appropriations Committees have reached a compromise on an omnibus spending bill that would fund the Environmental Protection Agency at a rate of \$8.2 billion for the rest of fiscal year 2014, an increase of approximately...

Budget

Omnibus Legislation Increases Funding For Energy, Water Programs in Fiscal 2014

An omnibus funding bill would appropriate \$34.1 billion funding for energy and water programs in the remainder of fiscal year 2014, a \$777 million increase from current funding levels....

Budget

Spending Bill Boosts Interior Funding to Help Protect Wildlife, Develop Natural Resources

The Interior Department would receive a funding increase of almost half a billion dollars for fiscal year 2014 under the Consolidated Appropriations Act, 2014 (H.R. 3547) worked out by Senate and House appropriations leaders, according...

Climate Change

Comment Period Extended on Fluorinated Gas Rule

The Environmental Protection Agency is extending the public comment period on a proposed rule that would ease some greenhouse gas emissions reporting requirements for fluorinated gas producers until Feb. 20, according to a notice scheduled...

Climate Change

EU Must Revitalize Carbon Sequestration Policy to Reduce Emissions, Parliament Says

The European Union should reinvigorate its flagging policy on carbon sequestration as part of its armory of tools to reduce greenhouse gas emissions by 80 percent to 95 percent by 2050, according to a resolution adopted by the European Parliament...

Climate Change

European Parliament Sends 2020 Carbon Cap For Light Vans to EU Council for Finalization

Carbon dioxide emissions from light vans sold in the European Union starting in 2020 would be capped at 147 grams per kilometer (g/km, or 237 grams per mile), under a regulation approved by the European Parliament Jan. 14....

Climate Change

House Subcommittee Clears Bill to Block EPA Rules to Limit Power Plant Carbon Dioxide

A House Energy and Commerce subcommittee approved legislation Jan. 14 to stop the Environmental Protection Agency from limiting greenhouse gas emissions from power plants, with the Republican majority clearing the bill over objections...

Climate Change

Massachusetts Governor Says State to Invest \$52 Million to Prepare for Climate Impacts

Massachusetts Gov. Deval Patrick (D) has unveiled plans to devote more than \$50 million to secure the state's energy resources, coastal regions and transportation infrastructure against the impacts of climate change....

Climate Change

Senate Democrats Launch Caucus to Push Climate Legislation, Defend Obama Plan

In a bid to better defend President Barack Obama's plans to set limits on power plant greenhouse gas emissions, 16 Democrats and two independents launched a new Senate caucus Jan. 14 that they hope will also pave the way for future congressional...

Climate Change

Senate Republicans Seek to Bar Use, Extend Comment Period on Social Cost of Carbon

Senate Republicans are asking the White House to bar federal agencies from using the revised social cost of carbon figure in their regulations until it can be finalized following a more extensive public comment period....

Drilling

EU Plans Shale Drilling Guidelines That Could Facilitate Fracking Operations

The European Union plans guidelines for shale drilling under proposals that may facilitate oil and gas extraction using the technique that's brought the U.S. toward energy independence....

Energy

China's Energy Consumption Rose 7.5% in 2013

China consumed 5.322 trillion kilowatt-hours (kWh) of energy in 2013, 7.5 percent more than the year before, the National Energy Administration said on its website Jan. 13. Service industries led the rise with 627 billion kWh consumed for...

Energy

Chinese Catalogs Promote Industrial Technologies That Save Energy, Pollute Less

China's top planning body and Ministry of Environmental Protection have released catalogs to promote the use of new technologies to reduce energy consumption, carbon dioxide emissions and pollution and spur the development of a so-called...
